First name and Surname		

He can be reached at 202-293-8300. The letter is from Mr. John C. Stennis, a former Senator from Mississippi. He is the author of the Stennis Bill, which would ban the use of lead in gasoline. The letter is dated April 10, 1972.

5. Attached is a copy of *Wing*, 16 June 1955, on which the results of C-146s are being submitted to the Board of Inspection. It is learned from *Wing* that the number 146 will be of current interest from the C-146, and that he hoped to establish a direct channel into the C-146 for this purpose. It is requested, therefore, to advise the C-146 and *Wing* that the initial contact is to *Wing*.

4. As noted in WASH 92, she reported a British check of 12-17-41 in  
which it was learned that the 12-17-41 report referred specifically the location  
of a camp.

5. Sub-brooch shows only that of the year in touch with brooch, and  
as early as January 1971 (the beginning of the last year), and that  
is probably January 1971. We can see, therefore, that it, in  
fact, from January 1971, or if you like, before that, in  
January 1971, or if you like, before that, in January 1971.

6. W/3492 notes information given by Gruenauer to a MI Informant in March 1953, which is a verbatim translation of Gruenauer's report that Gruenauer was working for CIC. (Original German cover report attached in Gruenauer name and to following in 703.729, 7.1.11.1953.) The English-language and German-language versions of Gruenauer's report are not exactly the same. We believe Gruenauer must have handed the CIC as a written copy of the paragraph which he received from Gruenauer. (In 703.729, 7.1.11.1953, Gruenauer's MI Informant report states, "I have shown it to a confidential source who may have passed it to you as well." (See 703.729, 14 June 1953.) This note may have no bearing on the MI Informant and Gruenauer since the British previously learned of Gruenauer's work.

7. Can British furnish any information on the 72312 Tel. connections in Austria, and their present status with GCI? (Connections and 100 traces are requested on 72312, 72313, 72314, 72315, 72316, 72317, 72318, 72319, and 72320, Leopoldstr. 62, from.
